

# **PERSONNEL COMMITTEE REPORT**

**May 2016**

## **New Hires**

The month of May was busy with the addition of more than 50 seasonal employees for the Parks and Recreation Department. The municipal pool opened on May 26 and is fully-staffed to provide a safe, fun environment for pool activities and swim lessons. Seasonal employees will also staff the Department's summer playground and athletic programs and will help keep the City looking great by lending a hand to the maintenance staff.

The City also welcomed five summer interns during the month of May; Andrea Kaufman and Jacob Boesch for the Engineering Department and Bryce Patz, Amy Wroblewski, and Josie Luptak for the Department of Development.

## **Health Promotion Committee**

The Health Promotion Committee celebrated National Physical Fitness and Sports month by sending out weekly emails to employees to stress the importance of adding physical activity to daily routines. Local activities such as *Bike to Work Day*, *Bike Rodeo* and *Full Moon Ride*, *Mind BOGgling Event*, and the upcoming *Celebrate National Trails Day* events were promoted.
